CENTAURUS 360 / SAFETY AND ONGOING CARE

Daily care for more than 2,000 animals

Monthly animal care and Foundation operating costs | October 2026

The Centaurus Foundation provides ongoing care for more than 2,000 animals, including over 1,500 horses and donkeys. Keeping them safe requires the daily work of dozens of people, consistent feeding and veterinary care, and the upkeep of its centres and reserve, covering approximately 1,000 hectares in total.

PLN 2,500,000 estimated per month

Six essential areas of day-to-day care

Area of expenditure	Average cost / month
Daily animal care, feeding and treatment	**PLN 785,000**
Personnel providing daily care	**PLN 540,000**
Care centres, infrastructure and equipment	**PLN 475,000**
Education and public outreach	**PLN 340,000**
Transport and emergency response	**PLN 235,000**
Administration and financial management	**PLN 125,000**
TOTAL	**PLN 2,500,000**

Why this support system matters

People, infrastructure, transport and sound financial management form one integrated system of support. This ensures that animals receive daily care and that funds entrusted to the Foundation are used and accounted for responsibly.

The CENTAURUS 360 programme aims to raise PLN 90 million to secure approximately 36 months of animal care and operating costs. Partners may support the Foundation's work as a whole or specific areas and needs agreed with the Foundation.

"Helping animals does not end with rescue — it begins with taking responsibility for every day of their lives. I invite you to share that responsibility with us."
